For Environmentally-Controlled Facilities!

A Safety Investment that pays for itself

Protects lives and equipment from injury, damage and downtime!

Effective

The **BrinkAlert LED Safety Light Systems** prevent costly door strikes, employee injuries and equipment damage by changing colors to alert personnel to the operational state of a door. LEDs can change colors and/or flash... the choice is yours!

Customizable

Our **original patented LED Controller** is the Brain of the System. It was designed & built in-house by our highly-skilled Engineering Team who stands ready to help craft a **custom-designed** solution that best suits your application's needs.

Durable

Our **super-tough IP68-rated** LED light strips, marine-grade wiring, and stainless steel hardware ensure long life even in the harshest conditions. Can endure temperatures from as low as -60°F up to 165°F. Our **3-year warranty** is the best in the industry!

Supported

Our **unique cutting-edge technology** makes your old or new doors safer than ever. Field programming of our patented LED Controller is quick and easy. Our outstanding technical support staff ensures that every project a success.
